

# Furrow presses

---

DAL-BO has for years been one of leading manufacturers of furrow presses in Europe. Our furrow presses have the reputation for good material and processing quality, reliability and long life span, possibility of different equipment, and not to forget the attractive low prices and the performance.

Our furrow presses can be delivered with the following rings:

\* with 80 or 90cm ring diameter

To obtain the best depth effect and clod crushing the packer rings have a ring profile of 30°. As the best fine-grained high-quality cast iron is used Dal-Bo carries a 3 year guarantee on cast faults in the packer rings.

## DAL-BO packer rings

We achieve a stable general construction by:

- \* 80 cm with 7-spokes
- \* 90 cm with 6-spokes
- \* high ring weight 45 to 68kg
- \* Diameter of shaft: **60mm**

# Furrow presses

Double furrow presses with heavy duty profile frame fitted with 80 or 90 cm packer rings. Trailed with the plough it offers excellent consolidation just after ploughing. In this way wheel tracks by the following drilling is minimised and moisture is retained in the soil.
